

AlphaGOS® is a plant-based Galactooligosaccharide (GOS) prebiotic which boosts Bifidobacterium and modulates short chain fatty acid production. It is derived from field peas *Pisum sativum*. It has a strong research portfolio, with over 23 studies performed on various topics and models. The human clinical trials in adults supports modulation of gut microbiota, improved metabolism in overweight individuals and decrease inflammation. In vitro culture of infant microbiota demonstrates bifidogenic effect superior to other oligosaccharides used in infant formulas. AlphaGOS® is water soluble and highly stable in a wide variety of pH and temperatures.

Product Characteristics:

Advantages:

- Plant-based GOS
- Clinical support for both adults and infants
- Boosts Bifidobacterium
- Dose 1-20 gm/day depending on outcome and audience

Applications:

- Capsules; Tablets
- Chewable
- RTM powders; Stick packs
- Nutritional bars
- Gummies
- Liquid RTD

Certifications:

- FDA GRAS for both adults & infants
- Vegan
- Halal
- GMO free
