

SAFFR'ACTIV®

# Sleep, Stress

**Saffr'Activ®** (*Crocus sativus*) is a saffron extract scientifically shown to support healthy sleep patterns and reduced stress and anxiety. In three published clinical trials, **Saffr'Activ®** demonstrated measurable sleep support at a low dose of only 30 mg per day. **Saffr'Activ®** showed significant improvements in sleep quality in all subjects, assisted in the falling asleep process, and resulted in subjects waking up and feeling well-rested. It may also provide mood enhancing benefits by supporting activity of serotonin, dopamine, and glutamate. Produced in France, **Saffr'Activ®** utilizes a patented DryCare® technology to maximize the potency of delicate crocins and safranal, all while maintaining traceability through direct partnerships with local harvesters. Made from the actives-rich portion of the saffron stigma, **Saffr'Activ®** is standardized to  $\geq 5\%$  crocins and safranal measured by HPLC and UV.

## Product Facts:

### Advantages:

- ✓ Clinically supported (3 published)
- ✓ Derived from actives-rich part of saffron stigma
- ✓ Traceable from origin to finished product
- ✓ DryCare® Technology to protect and preserve active compounds
- ✓ Standardized by HPLC and UV to  $\geq 5\%$  bioactives ( $\geq 3\%$  crocins and  $\geq 2\%$  safranal)
- ✓ Low dose of 30 mg/day

### Applications:

- ✓ Gummies
- ✓ Capsules, Tablets
- ✓ Powders
- ✓ Gels, Syrups, Liquids

### Certifications:

- ✓ Non-GMO
- ✓ Pesticide and allergen -free
- ✓ No adulteration
- ✓ Organic available
- ✓ GRAS (Self-Affirmed)
